

# Ceiling Blanket Insulation

Mammoth ceiling blankets are designed to be installed in new or existing roof cavities.

An effective and easy form of thermal insulation, Mammoth® Modern Insulation ceiling blankets have a range of R-values of up to R4.0, or R8.0 when double layered. Mammoth blankets are long lasting, won't sag or settle over time, are non-irritant and highly effective.

Mammoth products contain recycled polyester fibres. Mammoth ceiling blanket insulation uses up to 7,400 recycled plastic bottles per 100sqm\*. Mammoth ceiling blanket is a safe insulation material free from the chemicals and itchy fibres typical of traditional ceiling insulation. It won't sag or settle over time.

For new ceilings without a roof space there is the option of our [Mammoth Skillion Ceiling Sections](#).

## Can be double layered to meet the new Building Code.

Mammoth ceiling blankets are manufactured in roll form so that they can be installed as both a single or double layer system.

Mammoth ceiling blankets are designed in widths to fit snugly between joists or trusses in a single layer option or alternatively with a second layer run perpendicular to the first, covering the top of the joists or truss bottom chord reducing thermal bridging in these areas.

\* Double Layering - Double the quantity of product is required. For instance, a 100m2 area requires 200m2 of product to achieve a double layer.

## KEY FEATURES

- Soft, roll-form 100% polyester insulation blanket for ceilings. Can be double layered for higher R-value.
- Mammoth ceiling insulation provides thermal and acoustic benefits for residential and commercial applications.
- Mammoth ceiling blanket insulation uses up to 7,400 recycled plastic bottles per 100sqm\*. \*Calculations are based on 500ml PET Bottles (16.2g).
- Unaffected by moisture, Mammoth will continue to perform once dried out. Mammoth is moisture, mould and mildew resistant.
- Lightweight and easy to handle - can easily be torn to length or cut with shears. Available in varying widths and lengths to suit most applications.
- Assists in absorbing noise to create a quieter environment.
- Heat bonded - no glues or binders that can break down so it won't sag or settle over time.
- Red List Free - no formaldehyde or pesticides added.
- Safe, non-itch, odourless and non-toxic - no precautions are required for handling the product.
- All Mammoth ceiling blankets are BRANZ 797 Appraised.
- All Mammoth ceiling blankets have Environmental Choice certification and are NZ Green Building Council approved.
- Mammoth products are made in a zero waste production process and are fully recyclable.
- Mammoth ceiling insulation products have an ODP of zero.

- Long lasting, Mammoth insulation is performance warranted for 50 years (T&Cs apply).
- Manufactured by InZone Industries Ltd, NZ's first and only Toitū net carbonzero certified insulation manufacturing organisation.
