

MARTINI DECO FLEX

APPLICATION

Martini dECO Flex is a decorative acoustic wall covering for offices, classrooms and public spaces.

An attractive polyester acoustic wall covering designed to be used as a surface lining to reduce reverberated noise in commercial or residential spaces.

The composition of Martini dECO Flex is 100% polyester. It is suitable for walls in classrooms, libraries and office spaces as it is durable, hard wearing, helps reduce noise levels and has design flexibility to create contrasting colours, inlays and borders.

We're excited to bring you the latest Mammoth & CSR Martini's Decorative Acoustics brochure - download your free copy [here](#).
