

# Masonry Insulation

Mammoth masonry wall insulation products are designed to support the thermal performance of masonry/concrete walls.

Made of 100% polyester, Mammoth® masonry wall insulation is 45mm thick to fit between masonry battens and are available in two forms: a R1.0 wall blanket and R1.3 wall sections.

Mammoth products contain recycled polyester fibres. Mammoth masonry wall insulation uses up to 7,800 recycled PET plastic bottles per 100sqm\*.

For high performance self-supporting polyester wall sections, we have [Mammoth Wall Sections](#) or for walls requiring roll form insulation, there is the option of our [Mammoth Wall Blanket](#).
